Office of the
Chief Conservator of Forests
in Mysore, Bangalore.

No.A3.155.1674.60.

Dated: 26-12-1960.

To

The Secretary to Government,
Agriculture and Forest Department,
BANGALORE.

Sir,

Sub:- Clearance of vegetation in the Forest near communication lines.

.....

I submit herewith a copy of letter No.EXP-1562-FTC-25-60-61 dated 5th October 1960 received from the Conservator of Forests, Belgaum requesting permission to allow the clearance of 15' width on either side of the Telegraphic and Telephone lines passing through the State Forest of North Kanara Division as requested by the Divisional Engineer, Telegraphs Poona for favour of perusal.

In view of the circumstances expressed by the Conservator of Forests, Belgaum, I am permitting the Telegraph Department to clear the tree growth to a width of 15' on either side of the communication line. This is for the information of Government.

MYSORE GOVERNMENT SECRETARIAT
NO. 36.

Copy of letter No.EXP/1562/FTC/25/60-61 dated 5th October 1960 from the Conservator of Forests, Belgaum Circle, Belgaum to the Chief Conservator of Forests in Mysore, Bangalore.

.....

Sub:- Clearance of vegetation in the forest near communication lines.

....

With a view to maintaining the Telegraph and Telephone Communication Services between Hubli and Karwar efficiently, the Divisional Engineer Telegraphs, Poona Division, Poona requested for a complete clearance of jungle and bamboos growth to a distance of 40' on either side of the line. In reply he was informed that while it is necessary to clear the line by removing the obstructing growth of trees and bamboos, it may not be necessary to clear the forest growth to a width of 40' on either side of the line throughout, and that it should be enough if clearance to a width of 10' on either side is made particularly in North Kanara District where the line passes through valuable forests and clearance to the extent of 40' on either side lays bare much of the area and to that extent waste. He now says that it is absolutely essential that a minimum of at least 15' should be cleared on either side. He adds that it is proposed to super impose carrier working on this route and as such the necessity for maintaining this line free from faults is all the more important, and that Mysore Government is very particular that this communication route should be maintained at the highest efficiency possible.

2. Instructions may therefore be kindly issued to allow the clearance of tree growth to a width of 15' on either side of the line, so that the trees coming within this orbit may be marked and sold out either in tenders or by public auctions by the concerned Divisional Forest Officers.

To The CCF.

Sir,

Please refer to your letter no. A3-155-1674/60 dt 26-12-60 on the subject.

I am directed to convey approval of Govt to the action taken by you in permitting the Telegraph Dept to clear the tree growth to a width of 15' on either side of the communication line.

I am to request you further that the forest growth coming within the cleared areas should be marked and disposed off either by tenders or by public auction as per rules in force in this behalf.

Yours.
